SUBJECT: Vacation Plans

As we discussed in February, it is my intention to take about 2 1/2 weeks of vacation in late August, taking advantage of a house we have rented on Long Island. Specifically, I would intend to be away from August 17 through Labor Day (5 September).

I suggested that I would take one or two weeks of leave without pay and you had no problem with that idea. As it turns out, I should be able to earn enough hours so that only one week will need to be taken without pay (week of 29 August).
